Kinesiology “Results System”

Free yourself from stress, leave your pain behind and take flight

Find harmony, joy and improved health

I use this gentle healing therapy to allow you to go to the heart of a problem regardless of its origin. You will be released from old wounds as well as from new ones whether they be physical or emotional.

What is “Results System”?

“Results System” is a branch of kinesiology developed in the United States by Margaret Fields Kean. It uses a muscle test to retrieve information from your cell memory, in order to unblock and balance energy.

What happens during a session?

A session may include one or several techniques.

- Physical

- *Body alignment*

This technique is ideal for back, knee and hip pain and other ailments such as migraines, regardless of their cause (accident, sports injury, stress). Even pain that you have suffered for many years can be relieved quickly.

- *Re-Patterning*

Re-Patterning maximizes brain function through a re-balancing of both sides of the brain. This results in greater confidence, increases self-esteem, lower stress levels as well as improved problem solving.

- *Muscle work, acupuncture, etc.*

- Nutritional

Nutritional advice (dietary habits, allergies, etc.).

- Emotional Freedom

This method addresses trauma, fears, anxiety, depression, phobias and addictions in order to free you from the negative effects that they may have on your every day life. By using the muscle test, we identify the issues preventing you from reaching optimal physical and emotional health.

A session usually lasts 60 minutes and results are generally achieved within a short period. How many sessions you need and how often you need them is determined by the muscle test.

“Results System®” Margaret Fields Kean, School of Holistic Healing Arts, Virginia, USA

Consultation by appointment only, in Paris (11th arr.)

Telephone consultation

Phone call at my expense to any landline in France and many other countries (USA, Canada, United Kingdom, etc.).
